ADMISSION REQUIREMENTS

Access with official Spanish qualifications or qualifications awarded by higher education institutions in the European Higher Education Area (EHEA)

To access the doctoral program’s research period, the student shall have an undergraduate degree, an equivalent degree or an accredited qualification, and meet one of the following requirements:

1. Hold an official university master’s degree or another qualification at the same level issued by a higher education institution regulated by the EHEA that enables the holder to access doctoral courses in the country that issued the certificate.

2. Have been awarded 60 credits from one or several of the university master’s courses that make up the training period of the doctoral program that the student wishes to access.

3. Hold an undergraduate degree, which must comprise at least 300 credits, in accordance with EC regulations.

4. Have obtained minimum research capacity, in accordance with the provisions of RD 778/1998 or RD 185/1985.

Access with qualifications issued by higher education institutions not regulated by the European Higher Education Area (EHEA)

To be admitted to the doctoral program’s research period, students must hold an undergraduate degree or equivalent, and meet the following requirements:

1. Hold a master’s degree or equivalent issued in accordance with a non-EHEA-regulated educational system, if this qualification does not require accreditation, and entitles the holder to access doctoral courses in the country in which it was issued.

2. Authorization to access the doctoral course issued by the Rector’s Office of the University of Barcelona or a delegated body once it has been verified that the degree represents a level of education that is equivalent to the corresponding Spanish qualification of university master’s degree.
