TRAINING ACTIVITIES

Doctoral students must complete the following training activities:

- **Participation in seminars, colloquiums and conferences**: at least 10 hours for academic year
- **Advanced courses**: 20 hours during the total period of doctoral studies
- **Participation in congresses and workshops**: at least two congresses (40 hours) during the thesis preparation period
- **Mobility**: 40 hours during the total period of doctoral studies

Catalan universities offer joint training activities through BGSMath.

The Institute of Mathematics at the University of Barcelona (IMUB) also offers courses and talks.
