APPROVAL AND MODIFICATION OF THE RESEARCH PLAN

During the academic year after admission to the programme (enrolment for academic tutorials), doctoral students must prepare and submit a research plan, written in any of the programme's languages of instruction. The plan must include at least: the research objectives, the proposed methodology, the resources, and the planned schedule. The Academic Committee for the doctoral programme will announce its decision on the application before the end of the academic year.

The deadline for submitting applications for approval of the research plan is 1 July.

The application for approval of the research plan, which must be completed by students, should be sent to the email address sec-matematiques@ub.edu or handed in at the Secretary's Office for Students and Teaching Staff at the Faculty of Mathematics.

Students who wish to modify the research plan must complete the application to modify the research plan and submit it to the University of Barcelona's General Registry along with the new version of the plan.
